

APPENDIX 24 : RECOMMENDED TREE SPECIES FOR RURAL INDUSTRIAL ZONES..... 1

APPENDIX 24 : RECOMMENDED TREE SPECIES FOR RURAL INDUSTRIAL ZONES

Botanical Name	Common Name
Acacia decurrens	Green wattle
Acacia meamsii	Black wattle
Acacia melanoxin	Tasmanian blackwood
Banksia integrifolia	Coastal banksia
Casuarina cunninghamiana/glauca	River sheoak
Cedrus atlantica	Atlas cedar
Cedrus deodara	Indian cedar
Cinnamomum camphora	Camphor laurel
Cryptomeria japonica	Cryptomeria
Cupressocyparis x Leylandii	Leyland cypress
Cyprussus macrocarpa	Macrocarpa
Eucalyptus botryoides	Bangalay
Eucalyptus johnstonii	
Eucalyptus nitens	
Eucalyptus saligna	Sydney blue gum
Eucalyptus smithii	Lilly pilly, monkey apple
Lagunaria pattersonii	Norfolk Island hibiscus
Magnolia grandiflora	Evergreen magnolia
Pinus radiata	Pine
Populus yunnanensis (almost evergreen)	Chinese poplar
Pseudotsuga menziesii	Douglas fir
Quercus ilex	Holm oak
Sequoia sempervirens	Swamp cypress

Table 6 Recommended Evergreen Trees - Rural Industrial Zone

RECOMMENDED DECIDUOUS SPECIES

Botanical Name	Common Name
<i>Alnus cordata</i>	Italian alder
<i>Alnus rubra</i>	Red alder
Liquidamber	Liquidamber
<i>Platanus acerifolia</i>	London plane
<i>Populus</i> hybrid species	Poplars
<i>Quercus robur</i>	English oak
<i>Robinia pseudoacacia</i>	Robinia
<i>Taxodium distichum</i>	Swamp cypress

Table 7 Recommended Deciduous Trees - Rural Industrial Zone

RECOMMENDED INDIGENOUS (EVERGREEN) SPECIES

Botanical Name	Common Name
<i>Metrosideros excelsa</i>	Pohutukawa
<i>Podocarpus totara</i>	Totara

Table 8 Recommended Indigenous Trees - Rural Industrial Zone

- * The trees listed tolerate a range of conditions from dry to wet and need to be selected according to the nature of the individual site.
