NOTICE OF MOTION – from Councillor P A Seymour

Fitzherbert Street Building Complex Project – Preferred Construction Option and Lead Architect Appointment

This notice of motion requests a review of the data supporting the decision from the 28 May 2014 Council Meeting Item 9.2 14/164 Fitzherbert Street Complex Project - Preferred Construction Option and Lead Architect Appointment under Standing Orders Clause 3.9.15.

The full report is contained in the collected papers Municipal Buildings [July 2011 onwards] on page 223 or at http://www.gdc.govt.nz/assets/CommitteeMeetings/14-164_Report.pdf

Sufficient questions and concerns have been raised by the community and ratepayers around the scope of the design and rebuild options as opposed to the strengthening options that we believe a reconsideration of all data supporting the current decisions is required. There are some in the community who believe an **independent** review is required. That aspect I leave for the Councillors to discuss.

This notice of motion seeks to revoke the resolution of Item 9.2 14/164

The resolution was:

- 1. receives the report**
- 2. supports the project team's findings and appoints Chow:Hill Architects Ltd to further develop a preferred new build concept for Council approval before consultation is commenced.**

The motion that is intended to be moved in substitution is as follows:

RECOMMENDATIONS:

That Council

- 1. receives the report**
- 2. supports an independent review of all material that led to the decision to demolish and rebuild the municipal buildings located at 15 Fitzherbert Street, Gisborne District Council**
