

6.0 APPENDIX

6.1 Types of Approved Floodlighting Available for use on Recreation Reserves

Type A Floodlight ▶ Produces a fan-shaped beam with a non-symmetrical beam.

Type B Floodlight ▶ Produces a symmetrical beam of light.

Type C Floodlight ▶ Produces a fan shaped beam of light.

Type D Floodlight ▶ Produces cut of flood lighting also referred to as “environmental” floodlights.

(A)

(B)

(C)

(D)

6.2 Diagrammatic Illustration of Directional Floodlight Distribution

- (A) Directional light pattern and beam cross-section produced on a horizontal surface by type (a) floodlighting.

- (B) Lighting pattern and beam cross-section produced on a horizontal surface by type (b) floodlighting.

- (C) Lighting pattern and beam cross-section produced on a horizontal surface by type (c) floodlighting.
