## **Supporting letter for Eastland Port Twin Berth expansion**

We at McIndoe Logging definitely support the entire expansion of the Eastland Port to help allow our whole region and the Families that live and earn in it to capitalise on the massive growth of Export products that are and will be produced in our region.

As we are involved in the Forestry industry we know the expansion will have major economic benefits for Forest owners and associated Forestry related Companies and all the families involved within the industry for years to come by allowing faster movement through the Port of Export Logs which flows on to lowering costs, Less congestion, better utilisation of Shipping and Road Transport service providers to get product onto and off the Port which are currently a major cost issue to the industry.

Given the struggle that other industries like our Local Squash producers have had having to truck all of their product out of town to containerise and Export through other Ports and the massive growth that has occurred within the permanent Horticulture industry (Kiwifruit and Apples) in our region the opportunity for our region to capitalise on extra revenue streams all stems back to having the option to be able to export product through our Local Port therefor the Twin Berth extension is the only way forward to provide these options for Producers and associated Businesses.

Rodney McIndoe

A handwritten signature in blue ink, appearing to read 'Rodney McIndoe', written over the printed name.
