To Whom This May Concern,

I am writing this letter in support of the application to upgrade and expand the port.

The Tairawhiti horticulture industry is currently at a disadvantage relative to other producing regions due to its distance from a container port and the resulting additional costs incurred by growers of export products.

As part of the consultation period Kaiaponi understands that if the planned port upgrades and extensions occur, a competitively priced coastal shipping container service will be made available to local producers and post-harvest service providers such as our selves.

Kaiaponi is in support of the port upgrades as a competitively priced coastal container shipping service will be a positive step towards our region remaining a competitive producer of produce destined for international markets.

Regards,

Barton Witters
