

Appendix A:

Completed Council Coastal Permit Application Form

Application for Resource Consent

Coastal Permit

Section 88 of the Resource Management Act 1991

About this form

For generic activities in the Coastal Marine Area. **Note** - please use the form "Coastal Permit - Removal of Sand" for activities involving sand extraction. Please provide as much detail to all the questions and supply all the required information. You will be invoiced for all costs associated with processing your Coastal Permit once it has been processed. If you need any further help, please contact our Water Conservation team.

Proposal details (cont'd)

Please provide as many construction details as possible including a detailed diagram and specific information relevant to your application:

No construction is involved

Describe the proposal and list any possible contaminants into the coastal environment due to your proposed activity:

Continued maintenance dredging of up to approximately 140,000m³ of material each year from the port navigation channel, vessel turning basin, and vessel berthing areas adjacent to Wharves 4 to 8, and associated discharges of decant water to coastal waters, along with noise emissions from some maintenance dredging operations. Continued disposal of up to approximately 140,000m³ of maintenance dredgings each year at the Offshore Spoil Disposal Ground and associated discharges of decant water to coastal waters.

See sections 1.2 and 2 of attached 4Sight AEE for further details.

(continue on the back page if necessary)

Effects of operation on site (include any likely disturbance to vegetation and wildlife and changes to the physical environment:

See section 4 of the attached 4Sight AEE
