Submission in support of Eastland Port Twin Berth Stage 2 project

Pacifica Shipping is a wholly owned entity of Swire Shipping. Pacifica is Aotearoa New Zealand's only dedicated coastal container service operator with two vessels (MV Moana Chief and MV Takutai Chief) operating weekly services between North and South Island ports. Domestic freight makes up part of the volume mix, with export volumes making up for the majority of volume trans-shipped to the Port of Tauranga for export to the world. Pacifica plays an important role in connecting export shippers with key supply chains across Aotearoa New Zealand.

Pacifica Shipping has identified the Tairawhiti region as a developing market in need of a strong coastal connection. Pacifica Shipping has been investigating opportunities with Eastland Port to establish coastal shipping options between Gisborne, Napier and Tauranga. Our studies have determined significant support for the potential of coastal shipping to and from Eastland Port. A resilient coastal shipping service would provide sustainable and efficient connections with key markets for exporters at comparable and lower rates than road freight.

In addition, utilising the assets of the port would provide the lowest emission transport option for exporters, and remove up to 11,000 long distance truck journeys out of Tairawhiti every year. This opportunity algins with numerous NZ Government strategies and plans.

- It supports the Ministry of Transport 2030 Road to Zero strategy where the initial phase targets a reduction of death and serious injury.
- It also supports Ministry for the Environment Emissions Reduction Plan which has a target for net zero greenhouse gas emission by 2050.

Less trucks on our roads would result in a reduction in wear and tear of our public roads, our State Highway network in particular.

At the time of investigations, Eastland Port was unable to provide guaranteed berth space due to the current infrastructure restrictions and therefore Pacifica could not develop a fixed schedule for shippers. Pacifica's coastal schedule provides fixed day schedules at various ports and this provides the needed predictability for shippers to assemble cargoes and equipment. Without a commitment to berth space, a regular service cannot be offered.

Eastland Ports Twin Berth development unlocks significant potential, competitiveness, and resilience for the region. Pacifica Shipping and Swire Shipping, fully support the application.

Pacifica Shipping Level 14, SAP Tower 151 Queen Street Auckland 1010 New Zealand
