Introducing your Smart Dog Tag For VIPs (Very Important Pets)

Your Tag is pre-loaded with links to useful
dog control info for your district.

TagKing Helps You Keep Your Dog Safe.

Scan your Tag with your phone's camera
or a QR Reader App to learn how it works.

Your Smart Dog Tag has a useful new feature, a unique
QR Code, which enables you to display your own
choice of information on the Tag's info page.

It's quick and easy. You can add your dog's name for FREE,
or pay a small one-time fee for VIP options, which let you
add useful things, such as contact details if your pet is lost,
favourite photo, doggy info, vet details, dietary info,
vaccination dates, worm & flea schedule, instructions for
dog sitters, and almost any other information of your choice.

It's so simple and beneficial. If your beloved poochykins
could use a phone it would sign itself up.

*** This optional service is provided by TagKing. ***
